# PRESIDENT

Message

"There is a nobility in compassion, a beauty in empathy, a grace in forgiveness."

In today's world, one of the rarest quality one possesses is empathy and compassion. Everybody is mindful of their own lives and worries but there are very few people who show empathy. To move forward towards a happier and healthier community and world, we should develop collective compassion, empathy and the feeling of forgiveness. If these feelings are imbibed at a younger age, it becomes easier for the child to steer through the messy world. So dear kids, forgive those who you can. Have empathy and give out love and you'll notice the world being kind to you. Best of luck

Message

"Every skill you acquire doubles your odds of success."

Skill based learning is the future of Indian Education system and MPS International firmly believes in the notion. Rote learning and textual learning are now methods of the past. The major pedagogical shift due to NEP 2020 has initiated major emphasis on experiential and skill based learning. Several researches and studies have proved that students tend to retain more knowledge when they have a hands on experience. This pedagogy might not be easy but yields excellent results and builds brighter future. Dear kids, create a goal and follow through. Your perseverance and skills will take you to zenith of success. All the best for a fabulous future!
